OUR SERVICES

We do the supply and Installation and we provide a technical support network for your peace of mind. It is important for us to offer assistance from conception, throughout the construction phases to after sales of the building project. Our team apply competence and expertise at every stage.

In-depth Inspection

Our in-house team of experts will do the site visit and inspection. It is very important task to understand the site condition to specify and select the best product in prior of installation.

Installation

We provide highly skilled installers and applicators having long years of experience and delivering the best quality and workmanship with no margin for any defect which we guarantee.

After sales service

Our task just doesn't end at Installation. We make sure you enjoy the smoothness and the ambiance of our work even after our job is done and the DLP is completed as we do also offer complete maintenance services.

Warrantees

The products that we offer have the highest quality & certifications. To be more responsible and reliable we have the contingency plan for all of our products and services. If you are under the given warranty period and the product gets damaged, we offer reimbursement claims according to the pre-decided terms and conditions. We would be more than happy to assist you in every possible way.
